Biomass Resources

New York

Thousand Tonnes/Year

Above 500 | 250 - 500 | 150 - 250 | 100 - 150 | 50 - 100 | Less than 50

This study estimates the technical biomass resources currently available in the United States
by county. It includes the following feedstock categories:
- Agricultural residues (crops and animal manure);
- Wood residues (forest, primary mill, secondary mill, and urban wood);
- Municipal discards (methane emissions from landfills and domestic wastewater treatment);
- Dedicated energy crops (switchgrass on Conservation Reserve Program lands).
